

Southern Living Idea House 2012

Phantom's motorized screens offer shade and bug protection in a classic Southern farmhouse

“The screens take care of pesky insects, provide shade when the sun is strong and blend in well with the historic architecture of the home.”

- LOCATION:** Senoia, Georgia
- STYLE:** Farmhouse
- BUILDER:** John Bynum Homes
- PRODUCT:** Phantom Executive™ motorized retractable screens
- MESH TYPE:** Fiberglass 18/14 mesh
- NEED:** The design team needed a screen solution that would keep bugs and excessive sunlight off the back porch. It was also important the screens complimented the home's historic southern architecture.
- SOLUTION:** Phantom's motorized screens offer relief from the afternoon sun and unwanted insects, while blending with the period style of the house.

OVERVIEW

For over 20 years, Southern Living magazine has built an annual “Idea House” on lakes, beaches and in little towns across the South. Each year, 30,000 to 40,000 people travel to the houses to get inspiration for their next home project. For 2012’s Idea House, the magazine restored a pre-Civil War farmhouse in Senoia, GA dating back to the 1830’s. The designers wanted to include a secluded outdoor living area but needed a solution to unwanted bugs and harmful UV rays.

Phantom’s motorized screens were installed to create a comfortable outdoor space perfect for both entertaining and relaxing. The screens take care of pesky insects, provide shade when the sun is strong and blend in well with the historic architecture of the home.

APPLICATION HIGHLIGHTS

Enjoy the views without the bugs

Phifer’s 18/14 insect mesh in charcoal finish offers great visibility to the outside while blocking unwanted insects from entering the porch.

Easy operation

The screens can be lowered by the simple press of a button on a remote control or smart phone device.

Complements any space

Phantom’s motorized screens retract into cavities designed above the openings, completely hiding them from view. This way the screens don’t distract from the historic and elegant design of the porch.

PRODUCT FAST FACTS

- Custom made, professionally installed
- Motorized screen - retracts vertically
- In-wall or hand-held remote controls
- Weighted slidebar
- Custom color options (including wood grain finishes)
- Mesh, fabric & vinyl options for insect protection, sun control & climate control
- Optional sun and wind sensors

	WIDTH	HEIGHT
4" Housing	26" to 120"	Max 96"
